ISO 9001:2015 Certified

Library Feedback Report

This report aims to highlight the feedback received from students regarding the college library. The feedback was gathered through surveys, and direct interactions with students, providing valuable insights into their perceptions and experiences with the library facilities and services.

Methodology:

Data for this report was gathered through offline feedback form and interviews with randomly selected library users. The surveys focused on quantitative data related to library resources, services, and facilities, while the interviews provided qualitative insights on overall experiences and suggestions for enhancement. The response rate for the data collection was approximately 70%.

Key Findings:

Library Resources:

Feedback from users indicated general satisfaction with the available resources in the library. However, there were suggestions to enhance the collection by adding more new and relevant books, journals, and electronic resources.

Library Facilities:

The students highly appreciate the facilities provided by the college library, particularly the spacious study areas, comfortable seating arrangements, and well-lit environment. Many students have expressed satisfaction with the availability of resources such as textbooks, reference materials which contribute significantly to their academic pursuits.

Accessibility:

Accessibility for users with disabilities and communication through newsletters, social media, and feedback mechanisms are areas that need improvement. Some students have made suggestions regarding the incorporation of internet access and computer facilities within the library premises.

Conclusion:

Overall, the positive feedback from students underscores the importance of the college library as a valuable resource center that supports their academic endeavors. The excellent facilities, knowledgeable staff, diverse
