2	Name of Program	International Yoga Day
	Date	21/06/2022
	Number of Participants	19

Gargi Institute marked International Yoga Day on June 21, 2022, with a special session featuring Miss Pratima Phad. She guided us through various yoga practices, including shavasana, pranayama, chakrasana, and Suryanamaskar, shedding light on the transformative effects of yoga on our well-being.

The International Day of Yoga, observed globally since 2015, originated from the United Nations General Assembly's endorsement in 2014. Yoga, rooted in ancient Indian traditions, is a holistic discipline encompassing physical, mental, and spiritual dimensions. During our celebration, Miss Pratima Phad not only led us in practical yoga exercises but also imparted valuable information about the profound impact of yoga on our overall health and mindfulness.

The significance of June 21 for International Yoga Day was suggested by Indian Prime Minister Narendra Modi during his address to the UN in 2014. This date holds special importance as the longest day of the year in the Northern Hemisphere and is culturally significant in various parts of the world. Our commemoration of International Yoga Day served as a tribute to the ancient practice and a commitment to promoting holistic well-being among our community.
